Frank Hyman was an organic farmer and IPM scout in the 1980's. He's now an award-winning garden designer, carpenter, welder and stone mason in Durham, NC. He also writes columns for national magazines--*Chickens*, *Hobby Farms*, *Paleo*--and CommunityChickens.com. Frank's first book, the game-changing and fast-selling, *Hentopia: Create Hassle-Free Habitat for Happy Chickens: 21 Innovative Projects* sold more than 8000 copies in the first 7 months.

His wife says they spend less time on chores than they spend on cooking eggs. The editor of *Chickens* magazine says that Frank is a "Zen master of poultry."

Don't buy from Amazon unless you want to undermine your local small businesses, their employees and authors. Jeff Bezo's wealth comes straight out of our pockets. No exaggeration. You can order any of these books from your local independent bookshop or you can buy them used from someone's independent bookshop through [www.abebooks.com](http://www.abebooks.com).
